Ms. Tracy Atagi
Office of Land and Emergency Management (5304P)
Environmental Protection Agency
1200 Pennsylvania Avenue NW
Washington, DC 20460

Submitted via www.regulations.gov to Docket ID No. EPA-HQ-OLEM-2017-0463

Subject: Docket ID No. EPA-HQ-OLEM-2017-0463, Comments in support Proposed Rule to increase recycling by adding aerosol cans to Universal Waste Regulations

Ms. Atagi:

REGFORM, the Regulatory Environmental Group for Missouri, appreciates the opportunity to comment on the proposed rule changes in Docket ID No. EPA-HQ-OLEM-2017-0463 that would add aerosol cans to Universal Waste regulations.

REGFORM is a non-profit association representing manufacturers, electric generating utilities, and higher education institutions in the State of Missouri that are subject to environmental regulations, including current rules governing the disposal of aerosol cans.

We support this rule proposal and ask that the Administrator adopt it. We also support small (1 lb or less) propane cylinders being included as aerosol cans under universal waste provisions.

Among other things, addressing aerosol cans under Universal Waste regulations will increase recycling.

Thank you for considering our comments and requests.

Do not hesitate to contact me at (573) 680-5069, or via email at kperry@regform.org, should you have any questions.

Sincerely,

Kevin L. Perry
Assistant Director
